For the safety of all users of the park, please take a few minutes to review the proper etiquette when using the jog path at Fred Beekman Park.

**Bikers:**
- Maintain safe speed at all times. Park speed limit is posted at 15 mph; however, when the path has other users, you may need to slow down to provide a safe and comfortable environment for all who use the path.
- Ride on the right side of the path, regardless of direction. Do not take up the whole path. If you are group biking, stick to your side of the path and leave plenty of room for other path users.
- Because other park users walk/jog/rollerblade in both directions, please use caution when passing. There is no “right of way” on this jog path. Assume that there are others on the path not paying attention and use caution accordingly. Only pass when there is adequate space to allow a safe clearance before, during, and after the pass.
- Use an audible signal before passing to notify those being passed.

**Walkers/Runners/Rollerbladers:**
- Use the right side of the path, regardless of direction.
- Do not take up the whole path. If you are a group running, walking, rollerblading, etc., stick to your side of the path and leave plenty of room for people to pass you safely. It’s not a good plan to think you’ll move when someone comes along.
- Move off to the side of the path if you are standing around chatting (or enjoying the scenery). Let people that are in motion use the path.
- Keep dogs on a tight controlled leash.

Have fun and be safe while enjoying your time at Fred Beekman Park!
